X. PROJECT LOCATION AND DESCRIPTION: Attach a description of what is to be purchased or built with Project funds. Please include (at a minimum):

- A. The amount and cost of land involved in the Project and how the property will be accessed if it is not being directly purchased or leased. (Include a copy of any purchase and sale agreement, lease, and/or other documentation).
- B. A description of any Project building being acquired constructed or improved. Include construction estimates.
- C. A description of the machinery and equipment to be purchased with the proceeds of the Project. Include manufacturers’ names and model numbers (if available), the power production estimates in KW or cubic feet of natural gas or other energy, if applicable, and price quotes.

- D. Provide the names, addresses and contact information for all other companies involved in the Project and indicate their involvement (i.e. lessee, operating company, guarantors, energy users, funding source, other).

In certain circumstances an “as built” appraisal may be required of the proposed Project.

XI. ENERGY EFFICIENCY PROJECTS – (Projects that will reduce your energy consumption)

- A. Provide an independent estimate of the annual energy savings due to the Project in both units of energy (electricity, gas, other) and in dollars (spelling out the electricity rate assumptions). Also include an estimated payback period comparing the cost of the project to the annual savings after estimated debt service payments (annual operating savings in dollars divided by annual debt service payments). Efficiency Vermont will often provide this independent analysis.
- B. Are any modifications to the interconnection to your utility required? **Yes** **No** If Yes, please describe.
- C. Please provide a timetable for completion of the Project.

XII. RENEWABLE ENERGY GENERATION PROJECTS – (Solar, wind, geothermal, or other renewable power production projects) Please include attachments as applicable.

- A. **Do you have or have you applied for the Permits you will need?** **Yes** **No**
Indicate the status and timetable for obtaining the Act 248 Certificate of Public Good from the Public Service Board that is required to construct and operate the system. Submit the Certificate if already issued. Indicate what local or other permits will be needed to construct and operate the proposed Project and where your Project stands relative to the permits.
- B. **Will you be able to use the federal and state solar tax credits to partially fund the Project?** **Yes** **No** There are federal tax credits and accelerated depreciation benefits available for renewable energy projects. Please describe how these tax benefits will be used to support the project.
- C. **How will you sell the power produced?** Will the power produced be used by a Net Metering Group, or sold under a Power Purchase Agreement (PPA)? If it is being sold, include a copy of the Contract or Agreement and status, terms and any deadlines in that Agreement.
If the power is being used by a Net Metering Group, list all the committed Group Members and the amount of their current and anticipated usage (if different). Provide a copy of the Net Metering Agreement (if needed under the Vermont Statutes). Indicate whether the Members are paying 100% of the value of the credits they will earn or a discounted value. List other potential Group Members that have expressed an interest in joining the Group if there is sufficient power production. The total anticipated maximum annual power production of the proposed Project should be less than the minimum annual usage of the Group.
- D. **To what Utility company will you connect? What will that cost and how long will it take?** Identify the electric utility (if applicable) through which the Project system will be connected to the electric grid. Indicate what is required to connect to the grid and how the costs have been estimated. What is the status of the Interconnection Agreement with the utility? If it is available, please submit the Agreement. Has the utility confirmed those costs? **Yes** **No**

- E. **Will the Project system be connected inside the company's current meter or will it have its own electric meter?** Existing Meter Own Meter The Project may earn a much higher electric credit if the Project Net Meter credits are based on a separate meter recording the electricity produced than if the new system is connected inside a current meter and just reduces the power being billed.
- F. **Describe where the equipment will be located and how that location will impact the anticipated power production.** For example, are there potential shading issues on solar projects or accommodations on system design such as angle and orientation needed to put a system on a specific roof?
- G. **Describe any warranties on the equipment or power production guarantees and how ongoing maintenance will be provided.**
- H. **How will you monitor the system and its production once built?** Describe the power monitoring system that will be used to manage the system and who will do that function.
- I. **How much Power will your new system produce each year?** Provide documentation for the power production estimates.
- For solar electric projects include a PV Watts or similar independent estimate for the proposed system in your location in addition to the estimate provided by the proposed solar contractor. PV Watts is a free site operated by the National Renewable Energy laboratory.
http://gisatnrel.nrel.gov/pvwatts_viewer/index.html.
- For other types of power production provide reasonable, independent documentation supporting the projected power estimates for the proposed system.
- VEDA will typically engage an independent solar engineer to review the power production estimates projected for the site and the overall system design.
- J. **What will you be paid for the power you produce? Provide documentation for the electric rates (or other energy rates if appropriate) used in your financial projections.**
- K. **Do you know how much Carbon Dioxide and Nitrous Oxide your proposed renewable energy system will offset?** Provide documentation concerning the reductions in greenhouse gas emissions caused by the Project.
- L. **Will you earn the Solar Adder or Renewable Energy Credits (REC's) to enhance your projected revenue?** Provide documentation for any other material revenue assumptions including, if applicable, the 10-year Solar Adder under VT State Law, Renewable Energy Credits, or other rental income, etc.

XIII. LENDER COMMITMENTS

Please attach letters of commitment from all other participating lenders or guarantors, including banks, credit unions, and other private and/or public institutions or entities. For all non-bank private lenders/investors in the project, please provide full name, and address if not provided above.

Dun & Bradstreet Data Universal Numbering System (DUNS) Number

There is **no cost** for a business to obtain a DUNS number and the process takes about 10 minutes. If you already have a DUNS number, you can use the number you have. If you do not have a DUNS number, using the on-line method is best - register online at www.dnb.com. **Registering online is quicker – telephone inquiries have resulted in a 15-30 day delay.**

Online Instructions

1. There is **NO CHARGE** to obtain a Duns number; just follow the prompts and instructions; a number may be obtained as quickly as 24 hours depending on the volume.
2. **Use the U.S. GOVERNMENT CONTRACTOR OR GRANTEE RECIPIENT selection screen – VEDA’s federal funding requires each recipient to obtain a DUNS number.**

Telephone Instructions

1. Dial 1-866-705-5711
3. Enter “5” if registering as a government loan applicant and select “1” at the next menu for new DUNS number.
4. Enter “4” if registering as a government grant applicant and select “1” at the next menu for new DUNS number.
5. At this point a service representative will answer and suggest you buy the Credit Builder Service. **It IS NOT necessary to purchase this service** in order to obtain your loan.
6. Provide answers to the following questions:
 - a. Name of business
 - b. Business address
 - c. Local phone number
 - d. Name of CEO/business owner
 - e. Legal structure of the business (corporation, partnership, LLC, proprietorship)
 - f. Year business started
 - g. Primary line of business
 - h. Total number of employees (full and part time)
